Please Note: This service does not include a search of Vtesse Networks Ltd for their telecommunications fibre plant due to extensive research which has shown their equipment is present in less than 1% of searches. An additional search of Vtesse Networks Ltd is available on request from £60 + VAT for areas of 250m radius or less. The rate for searches for sites larger than 250m radius are available upon request from Landmark Customer Services.

Definition of Terms

Affected Utility supplier is expected to be affected by any work carried out in the area searched as their records indicate their plant is in or close to the area searched. It is recommended to anybody carrying out works in the area that they should consult with the utility company as soon as possible and in any event prior to carrying out any works.

No response received At the date of sending the report no response has been received from the utility supplier.

Not affected Utility supplier is not expected to be affected by any work carried out in the area searched as their records indicate their plant is not in or close to the area searched.
